- 1 Maasai Wanderings will pass on the little excess profits from your safari and village experience to funding a safe place for the street kids of Arusha to stay and maintain the Ilkurot Nursery School (which opened 11 July 2005 and now caters for 212 students) – these are our primary objectives as a company!
- 2 We have included accommodation, transport, meals, National Park fees and guide fees as indicated in this itinerary (i.e. – the only money that you need to bring is for gifts and tips if you desire or other arrangements made as per your request)
- 3 We personally try and test every place, campsite, accommodation that we recommend to you. It is part of the service. We choose the length of stay at National Parks based on the amount of time you will need to hike or view the game and wildlife of that particular park. It is important to us that your safari, hiking, village or trekking meets our high standards of expertise and service, we also want your East African dream adventure to be something that you will never forget!
- 4 Tipping is customary but not obligatory for safari and trekking staff, but it certainly does ensure excellent service. Remember: our staff are working in harsh conditions because they believe in our company's charitable objectives. We can provide a tipping guide for you if you need one.
- 5 If you have any further queries or requests, please contact us on info@maasaiwanderings.com, donna@maasaiwanderings.com or +255 755 984 925.
